LEGEND

- 1 OFF-ROAD COURSE
- 2 CLUBHAUS
- 3 OFF-ROAD HALL
- 4 OSTSCHLEIFENTERRASSE
- 5 UPPER PADDOCK
- 6 DYNAMIC AREA
- 7 LOWER PADDOCK

Off-Road Course

Off-Road/SUV

The off-road course at the BILSTER BERG offers around 5 kilometers of traced trails with four different levels of difficulty and various types of ground. Whether in your own vehicles or with rental vehicles and instructors from BILSER BERG, the off-road course promises a lot of driving fun.

Dynamic Area

Dynamic Area

The dynamic area is divided into three interconnected levels that can be irrigated separately or together. The middle level has a gradient of six percent.

The dynamic surface is particularly suitable for driving safety, braking, cornering and slalom training. In irrigated condition you will find great conditions for drifting.

In addition, the area has a skid pad measuring 80 x 10 m which simulates the effect of changing road grip when irrigated and makes it possible to optimally simulate critical cornering and thereby offers further possibilities for exciting driving training.
